Investment Objective

The iMix Millhouse strategy is built on the philosophy that nobody knows what's going to happen in the future. As such, it is designed to thrive in all economic regimes. This is accomplished through three unique characteristics: (1) structural diversification, (2) comprehensive and transparent investment process, and (3) low costs. The iMix Millhouse anticipates economic outcomes that evolve along two dimensions: Economic growth and inflation. Combinations of these dynamics create environments that lead to predictable asset class behaviors.
